Q&A

Can the Total Access 850 BCU be configured via the CRAFT port on the back of the unit?

Q: Can the TA 850 BCU be configured via the CRAFT port on the back of the unit?

A: The TA 850 BCU can only be configured from the ADMIN port on the front of the unit. It cannot be configured via the ethernet or CRAFT (RJ-45) port on the rear of the unit.
