Q&A

Can an older 4203 2xT1 5.8 GHZ system talk to a current 4202 2xT1 5.8 GHz system?

Q: Can an older 4203 2xT1 5.8 GHZ system talk to a current 4202 2xT1 5.8 GHz system?

A: "No, the 4203 used the DSSS and the 4202 uses the FEC modulation schemes. They are not compatible."
